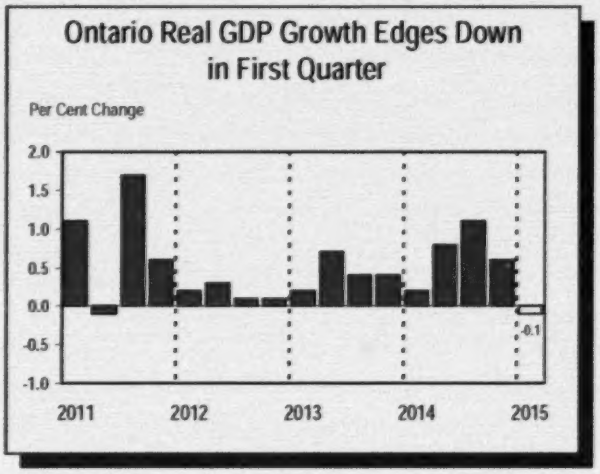
FIRST QUARTER (JANUARY-MARCH) 2015 SUMMARY

- Ontario's real **Gross Domestic Product** (GDP) edged down 0.1% (-0.2% annualized) in the first quarter of 2015, following a 0.6% (2.3% annualized) gain in the fourth quarter of 2014. Unusually harsh winter weather dampened economic activity in Ontario and other parts of North America in the quarter.



- **Household spending** rose 0.4%, following a 0.7% gain in the fourth quarter of 2014. Spending on non-durable goods (+1.2%) and services (+0.4%) led the gain in consumer expenditures.

- **Investment in residential construction** increased 1.3%, after remaining unchanged in the fourth quarter of 2014. New housing construction led the gain, while renovation activity and home ownership transfer costs declined.

- Capital spending on **machinery and equipment** declined 1.2% and **investment in non-residential construction** decreased 5.5%.

- Businesses increased **inventories** by $8.1 billion ($2007), after accumulating $5.8 billion worth of stocks in the fourth quarter of 2014.

- **Exports** declined 2.0%, while **imports** edged down 0.2%.

- **Current dollar GDP** increased 0.3%, accelerating from a 0.1% pace in the previous quarter. Economy-wide prices, as measured by the **GDP implicit price index**, advanced 0.4%.

- Economic production, measured on an **industry basis,** declined by 0.1%. Production by goods-producing industries declined 0.7%, while output by service-producing industries edged up 0.1%.

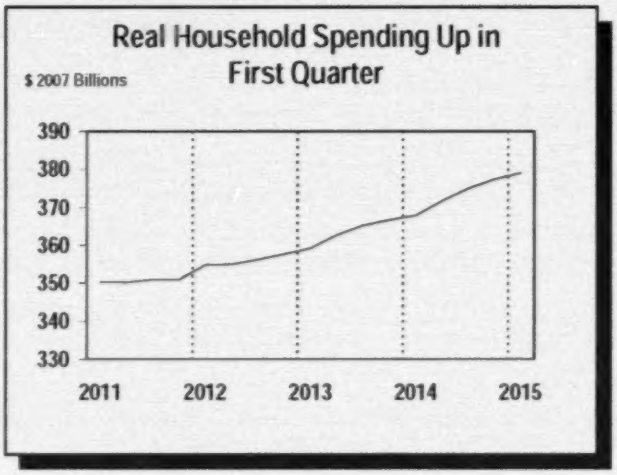
FIRST QUARTER REAL EXPENDITURE DETAILS

HOUSEHOLD SPENDING UP IN FIRST QUARTER

Household spending increased 0.4%, following a 0.7% gain in the fourth quarter of 2014.



Spending on **durable** goods declined 1.2%, following a 1.2% gain in the previous quarter. Unusually harsh winter weather contributed to fewer purchases on items such as automobiles and furniture in the quarter.

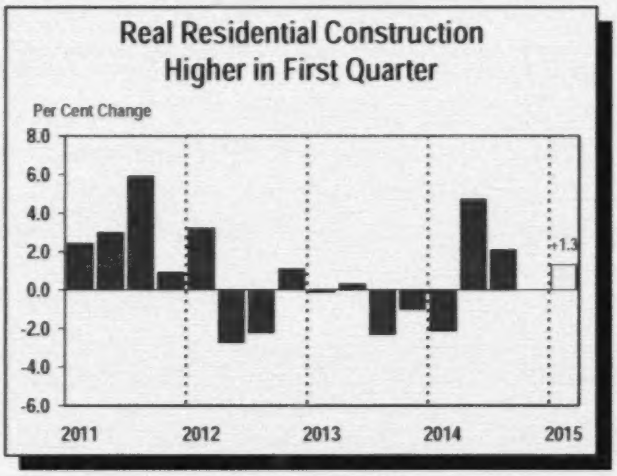
Expenditures on **semi-durable** goods increased 1.2%, the fourth consecutive quarterly advance.

Spending on **non-durables** also increased 1.2%, led by stronger sales of gasoline, natural gas and other fuels. The strong increase in natural gas sales was likely due to additional heating requirements resulting from the unusually cold weather in the quarter.

Household spending on **services** rose 0.4%, matching the increase in the previous quarter.

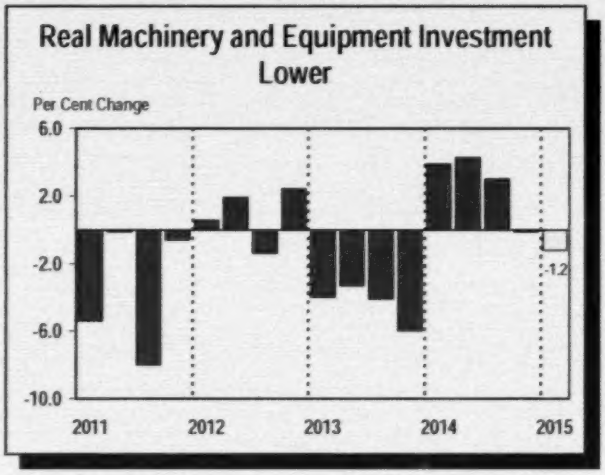
RESIDENTIAL CONSTRUCTION HIGHER IN FIRST QUARTER

Residential construction investment increased 1.3%. New home construction led the gain, while renovation activity and home ownership transfer costs both declined in the first quarter.



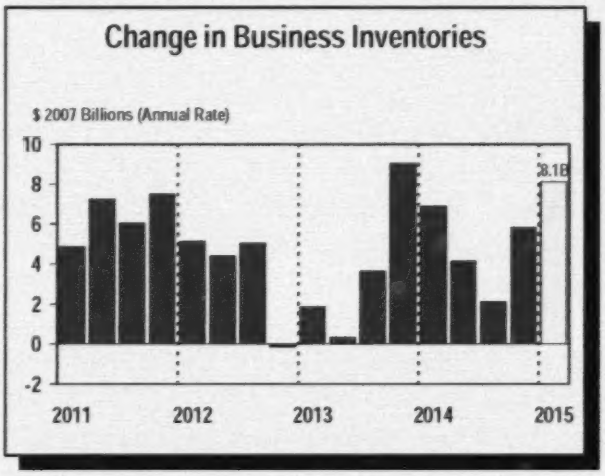
Business Investment in Machinery and Equipment Declines

Capital spending by Ontario businesses on **machinery and equipment** decreased 1.2% in the first quarter, following a 0.1% decline in the previous quarter. Investment in **non-residential construction** declined 5.5%, the first decrease in the past five quarters.



Business Inventory Accumulation Continues

Businesses increased **inventories** by $8.1 billion in the first quarter, after accumulating $5.8 billion in the fourth quarter of 2014. The accumulation of inventory stocks was widespread across manufacturers and wholesalers in the first quarter.

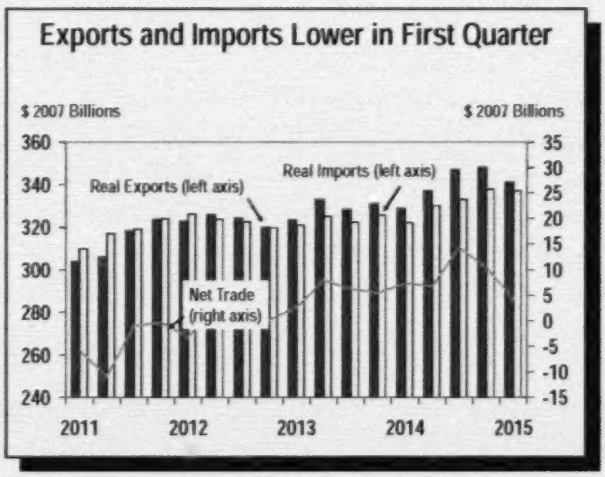


Exports and Imports Down

Exports of goods and services decreased 2.0%, after edging up 0.2% in the fourth quarter of 2014. **Imports** declined 0.2%, following a 1.4% gain in the previous quarter.

International merchandise exports decreased 3.8%. Exports of automotive products and consumer goods were lower in the quarter, while exports of industrial machinery and equipment and electronics were higher.

International merchandise imports declined 0.5%, following a 2.2% increase in the previous quarter. Imports of automotive and metal and non-metallic mineral products were lower in the quarter.



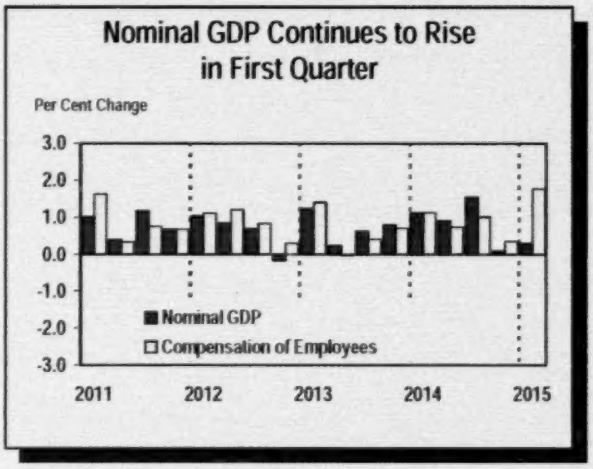
FIRST QUARTER INCOME DETAILS

NOMINAL GDP GROWTH ACCELERATES

Gross Domestic Product measured in current dollars increased 0.3% in the first quarter, accelerating from a 0.1% pace in the fourth quarter of 2014.

Compensation of employees advanced a strong 1.8%, partly due to a special payment by the federal government to fund its employees' pension plans.

The net operating surplus of corporations declined 4.2%, following a 3.3% decrease in the previous quarter.



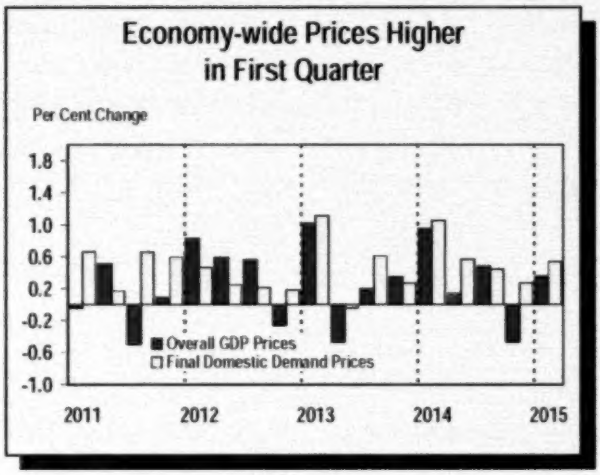
Household disposable income rose 2.1%, following a 0.5% increase in the fourth quarter. Ontario's household saving rate* (the ratio of savings to household disposable income) rose to 3.9% in the first quarter of 2015, from 2.4% in the previous quarter.

*Note: Household saving is calculated in the System of National Accounts as the difference between the amount households receive as current income and their outlays for taxes and personal consumption.

ECONOMY-WIDE PRICE DETAILS

PRICES RISE IN FIRST QUARTER

Economy-wide prices, as measured by the **GDP implicit price index**, rose 0.4% after declining 0.5% in the fourth quarter of 2014. Higher domestic prices along with increasing export prices contributed to the overall price increase.



The implicit price index for **final domestic demand** increased 0.5%, after advancing 0.3% in the previous quarter.

Prices for **household consumer expenditures** remained unchanged, following a 0.1% increase in the previous quarter. Prices were higher for food, furniture and natural gas, but were partially offset by declines in gasoline and other fuels in the first quarter.

Machinery and equipment prices increased 3.1%, while **non-residential construction** (+0.4%) and **residential construction** (+0.8%) prices also rose in the quarter.

Both **export** (+1.5%) **and import** (+1.9%) **prices** increased in the first quarter.

ONTARIO PRODUCTION BY INDUSTRY DETAILS

HIGHLIGHTS

Ontario's **real output by industry** edged down 0.1% in the first quarter of 2015, following a 0.6% gain in the fourth quarter of 2014.

Output by the goods-producing sector contracted 0.7%, driven by lower output in manufacturing (-1.4%) and construction (-0.8%). Service sector output edged up 0.1% in the first quarter, with solid gains in finance and insurance (+0.9%) and professional and administrative services (+0.7%).

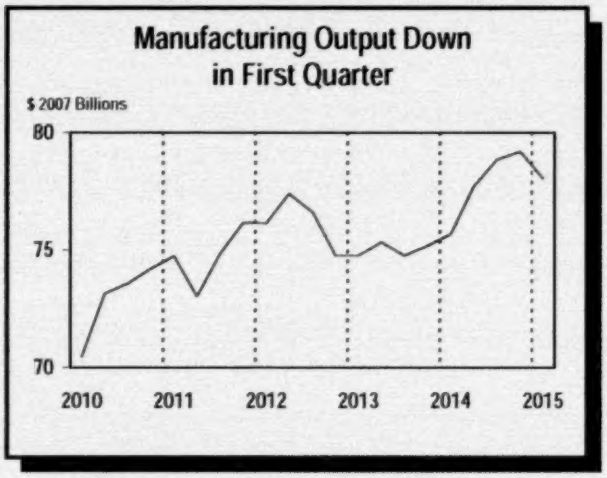
Other Services	3.6	2.5	0.7	-0.5	-0.5	-0.1
Public Administration	-0.1	0.5	-0.3	-0.6	0.7	0.3
Ontario Output at Basic Prices	**1.2**	**2.3**	**1.0**	**1.1**	**0.6**	**-0.1**

Note: Output by industry is defined as real gross domestic product (GDP) at basic prices in chained 2007 dollars. GDP at basic prices includes taxes net of subsidies on labour and capital inputs, but not taxes on final products.

Manufacturing Output Lower

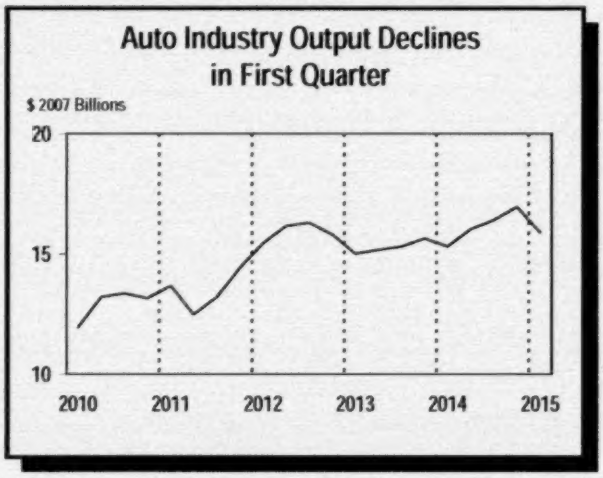
Manufacturing sector output decreased 1.4% in the first quarter, following five quarters of solid growth.

Five of eleven manufacturing industries had lower production in the first quarter, with a notable decline in **transportation equipment** (-5.9%).

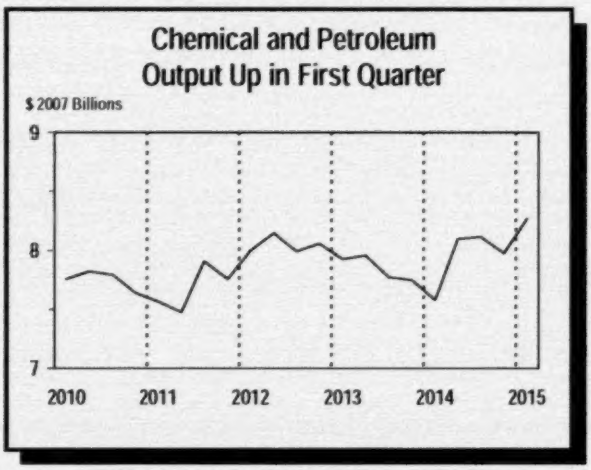


Within the transportation equipment industry, **automotive vehicle and parts production** was 6.4% lower, partially reflecting temporary plant closures for retooling. The decline follows strong gains in the previous three quarters.

Output in "**other transportation equipment**", which is primarily composed of the aerospace sector, declined 3.3% in the quarter.



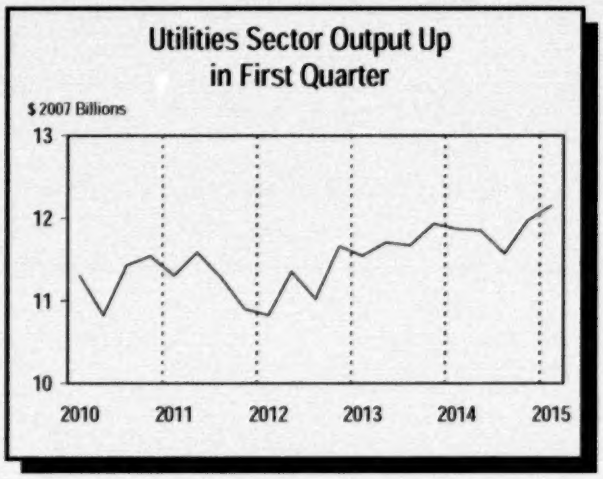
The largest manufacturing gains occurred in **chemical and petroleum products** (+3.7%) and **food, beverage and tobacco products** (+2.3%).



Utilities and Primary Output Higher

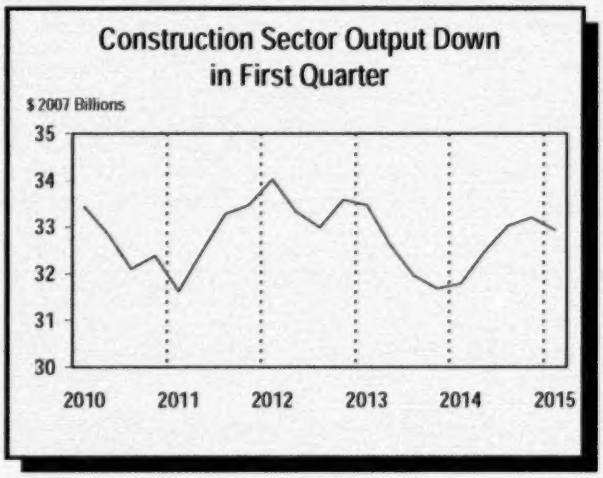
Utilities output rose by 1.5% in the first quarter, reflecting gains in natural gas and water distribution utilities.

Output from the primary industries was also up in the quarter (+2.1%) with gains in agriculture, forestry, fishing and hunting (+4.4%) and mining (+0.7%).



Construction Output Lower

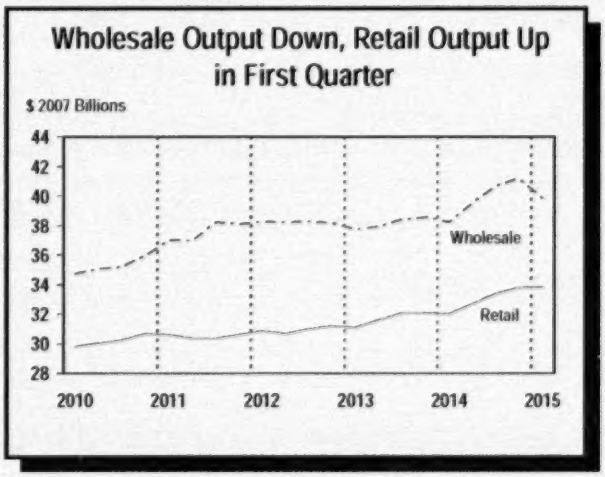
Construction* sector production declined 0.8% in the first quarter, following four consecutive quarterly gains. Lower output in non-residential buildings and engineering (-2.9%) were partly offset by higher output in residential building (+2.4%).



Wholesale Trade Declines While Retail Trade Edges Up

Wholesaling activity decreased 3.2% in the first quarter, following three quarters of gains. The decline was led by building materials and motor vehicle and parts wholesaling.

Output in the **retail** trade sector edged up by 0.1%, following a 1.3% gain in the previous quarter. Lower sales in motor vehicle and parts retailing as well as electronics and appliance stores restrained gains in retailing output.

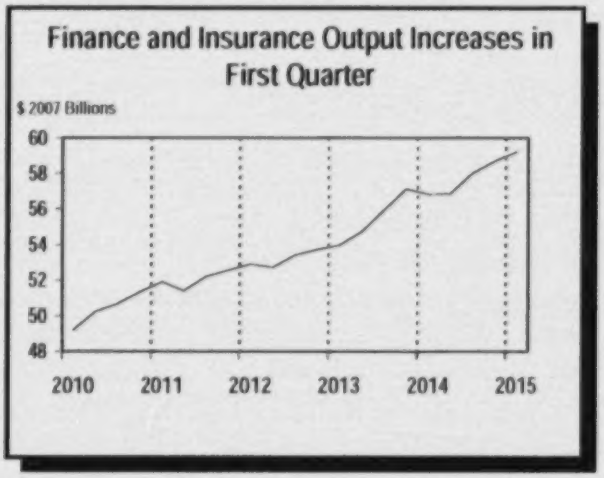


*Construction industry output is measured by the value added of the industry. Construction investment, as reported in the expenditure-based GDP accounts, measures the spending on new construction projects.

Finance, Insurance, Real Estate and Leasing Output Higher

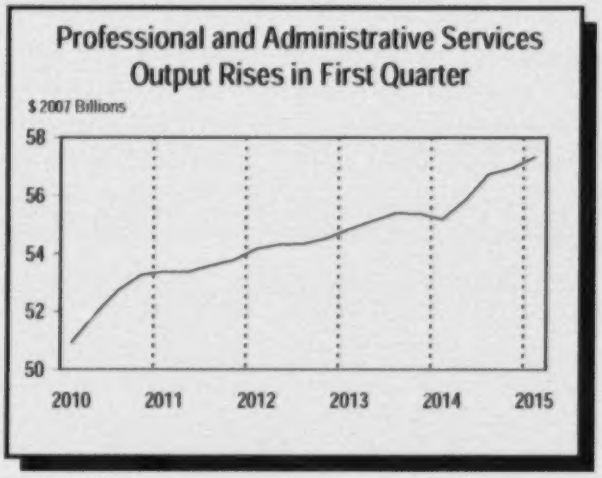
Output in the **finance and insurance** sector increased 0.9% in the first quarter, following a 1.2% increase in the fourth quarter of 2014. Higher output in investment services led the increase.

Output in the **real estate and leasing** sector edged up 0.1%, slowing from a 0.7% increase in the previous quarter.



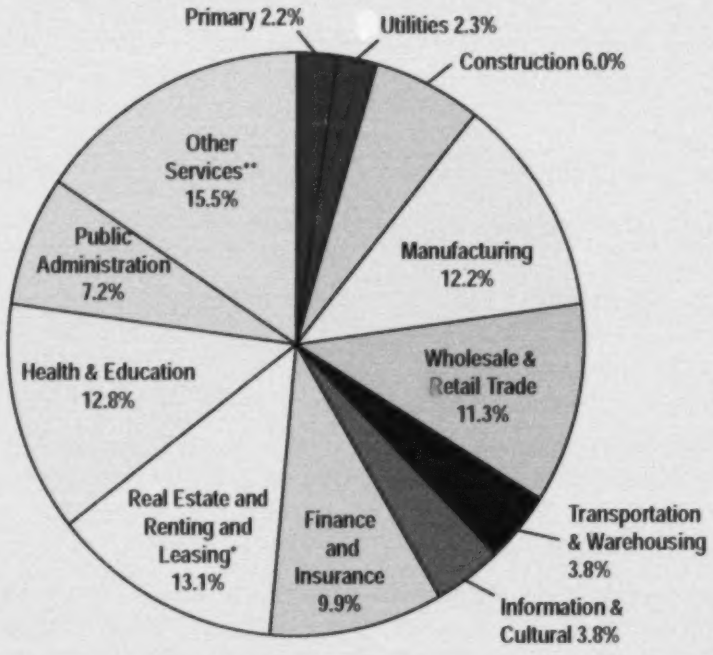
Professional and Administrative Services Output Up

Professional and administrative services output advanced 0.7%, strengthening from a 0.4% gain in the fourth quarter of 2014.



Structure of the Ontario Economy, 2014

Per Cent Share of Nominal GDP



Sources: Statistics Canada and Ontario Ministry of Finance

*Includes owner occupied dwellings.

**Includes professional, scientific and technical services; management of companies and enterprises; administrative support and waste management; arts, entertainment and recreation; accommodation and food services; and other services.
